

General specification Camshelving® easy and quick to clean. Smooth wipe clean polypropylene surface. Weldless construction so liquids and dirt cannot get inside crevices. Each Camshelving® component is dishwasher safe. Easy cleaning makes HACCP compliance simpler. Embedded Camguard™ silver-ion technology continuously works to suppress the growth of mould, fungus and bacteria.

Easy to adjust and configure. Build any configuration and fit any size area. Available in 5 heights, 4 depths and 12 widths. Shelf heights adjustable in 100mm increments without disassembling the unit. No bolts, no nuts! Easy 1-step slide together construction. Available with level footing, wheels and solid or vented shelves.

Strong, durable and stable. 150 to 200kg load per shelf depending on the length of the traverse. 'Strong as steel' weight bearing upright posts and horizontal traverses. Unique engineering of the post connectors (top and bottom) provide exceptional cross stabilization. Built in straight lines, two shelving units can share an upright post with no loss in weight bearing capacity.

Rust free polypropylene surface won't rust even when washed or placed in wet or humid environments. Not even salt water or sea air will corrode Camshelving®. Ideal for walk-in refrigerators and freezers as cold as -38°C or wet environments. Lifetime limited warranty against rust and corrosion for traverses and posts. Rust-free environment is vital for sanitary, HACCP compliant operation.
